Facility Access Logic

Level 1 Facilitator

Access only:

Facility A

└─ Cutting

└─ Assembly

└─ Packing

Cannot see:

Facility B

Facility C

Level 2 Facilitator

Can see:

Facility A

Related Level 1 Teams

Cutting

Assembly

Packing

Production Level 2

Can view supporting Level 1 data.

Level 3 Facilitator

Can see:

Entire Facility

All Level 1 Teams

All Level 2 Meetings

Level 3 Meeting

Level 4 Leadership

Can see:

Facility A

Facility B

Facility C

Facility D

Corporate Level 4

Can benchmark facilities against each other.

Recommended Future Facility Management Page

New Menu:

System

└ Facility Management

Functions:

- ☒ Create Facility
 - ☒ Rename Facility
 - ☒ Archive Facility
 - ☒ Duplicate Facility
 - ☒ Clone Communication Structure
 - ☒ Assign Users
 - ☒ Assign Managers
 - ☒ Facility Reporting
 - ☒ Facility Benchmarking
-

Recommended Role Dropdown

Replace:

Admin

Lean Facilitator

Manager

Team Leader

Viewer

With:

Account Owner

Administrator

Lean Facilitator

Level 1 Facilitator

Level 2 Facilitator

Level 3 Facilitator

Level 4 Leadership

Viewer

This structure will comfortably support:

- Single site businesses
- 3–5 facility companies
- 20+ facility manufacturing groups
- Franchise networks
- National operations
- Enterprise clients

without requiring a permissions redesign later.
